

Introduction to Modern Chemical Kinetics

Spring 2014

Enrique Peacock-López
Department of Chemistry
Williams College
Williamstown, MA 01267

December 21, 2013

Contents

1	Chemical Reactions as Nonlinear Systems	1
2	Concepts in Nonlinear Dynamics	1
3	Two variable chemical systems	1
4	Chemical self-replication	1
5	Reaction-Diffusion reactions and Pattern formation	1
6	Discrete Dynamic systems: 1-D and 2-D Maps	1
7	Chaos in chemical systems	1
8	Extension to other macro systems	1
