October 13, 2010

To our Contact People at Israel's universities and academic colleges

Shalom,

With the opening of the new academic year, I would like to remind you that the Contact Center of the Israel Academy of Sciences and Humanities is in touch with over 1,300 Israeli researchers abroad, 927 of whom hold doctoral degrees and 349 are doctoral students. Ours is a very dynamic data base, for many have returned and others are constantly registering in their stead. Most of these people wish to return home to Israel and are looking for positions in your institutions that will enable them to do so.

You are cordially invited to either post any academic positions available in your faculties or departments independently, using your personal password through the following link: http://www.academy.ac.il/contactcenterinstituteform/psw_form.asp, or to send me the information and any relevant files. In both case, I shall send the material to candidates of the fields which you indicate are relevant to the positions. I am attaching the list of 94 academic disciplines of those registered with the Contact Center for your convenience.

This appeal is relevant for both the current and the forthcoming (2011-2012) academic years.

By joining efforts, we can all contribute to the national effort to reverse what is known as Israel's Brain Drain.

With best wishes for a fruitful and successful year,

Batsheva Shor, Director
CONTACT CENTER for Israeli Researchers
Israel Academy of Sciences and Humanities
